

Wrapping Up

Thanks for participating!

Here's an opportunity to ask any more questions you might have about Loop. I will try my best to answer and potentially build them into the Workspace and future sessions.

You'll have access to this Loop workspace forever to refer to. There is a ton more content online about Loop, you can have a look

[Microsoft's guide](#) as a starting point.

[Join the UQ Microsoft 365 Viva Engage community](#) for helpful guidance and discussion on various Microsoft 365 products such as Loop.

We have a ton of other classes and workshops coming up, [check out our webpage](#) to see what's on offer.

Don't hesitate to send us an email: training@library.uq.edu.au with any questions you might have, we're here to assist. Also if you end up using Loop in a cool way feel free to send something through to let me know 😊.

Post-class feedback survey

Here's a link to the optional but super helpful feedback survey:
