Interface Overview

Open **Adobe Acrobat** from desktop

1. Click **Windows** icon in taskbar
2. Select **Adobe Acrobat** icon

Welcome Screen

From the Acrobat welcome screen you can access one of your recently used files or use the Getting Started menu as a pathway into the application

Home (default welcome)

- Click on any of the files listed

Tools

Click any option to work with PDF's

Acrobat Screen

1. Menus

The menu bar has been consolidated and now displays only 5 headings.

2. Toolbars

Quick Tools and Favourites toolbars are always visible with an open file.

3. The Navigation pane

Contains a number of icons which reveal tools for moving around the document.

4. The Document pane

Acrobat displays the pages of your document here.

5. The Tasks pane

Tools in the Tasks pane are arranged in a series of panels. Each panel can be opened or closed by clicking on its name.

Exercise 1.

Tools Panel

Panels

Panels give access to various Acrobat components. These components provide the user with various tools to affect the document, the ability to comment on and annotate the document and share it with other users.

1. Open **Adobe Word Document2018.PDF**
2. Click **Tools** in the toolbars, to view all the available tools.

Access more tools

3. Click **Add** beneath **Accessibility** to add this tool to the Tools Pane

Getting Started

Exercise 2.

Setting Acrobat Preferences

Set page display magnification

1. Click on **Edit > Preferences**

Acrobat displays the Preferences dialogue box

2. Click the **Page Display** category

3. Change Zoom to **100%**

4. Click on **OK**

Whenever a **PDF** is opened it will be displayed at 100%

Manage PDF file settings

1. Click on **Edit > Preferences**

2. Select the **Spelling** category
3. Select **Add**
4. Click on **English (United Kingdom)** and place a tick
5. Click on **English (United States)** and remove the tick
6. Click on **OK**

7. Select the **Units & Guides** category
8. Change **Page and Ruler Units** to **Centimeters**
9. Click on **OK**

Creating PDFs

Exercise 3.

Create a PDF from Word

Converting a Word document with styles applied

1. Open **Microsoft Word**
2. Open **Adobe Word Document.docx**

3. Click the **File** tab
4. Select **Save as**
5. Click the **Browse** button
6. Select **PDF (*.pdf)** in the **Save as type:** field

7. Select **Optimize for Standard**
8. Check **Open file after publishing**
9. Click the **Options** button

10. Check **Create bookmarks using:**
11. Select **Headings**
12. Click on **OK**

After conversion your document will open in Acrobat

Navigate file with bookmarks

1. Click on Bookmark icon to expand pane

All the styled text from Word document has been included as a PDF bookmark

2. Click on any bookmark

PDF Settings

After conversion you can access document properties in Acrobat Pro to complete metadata and other settings

1. Click on **File > Properties**
2. Complete metadata on the **Description** tab
3. Click on the **Initial View** tab
4. Change **Navigation tab:** to **Bookmarks Panel and Page**
5. Change **Magnification** to **Actual Size**
6. Click on **OK**
7. Close file using **CTRL+W** on the keyboard

This will keep the application open

Exercise 4.

Set Acrobat as default PDF reader

To ensure your PDF's open in Acrobat you can choose a default program:

1. Open **Windows Explorer**
2. Navigate to **Adobe Word Document.PDF**
3. Right click on filename
4. Select open with...
5. Select **Choose another app...**

6. Click on **Adobe Acrobat**
7. Check **Always use the selected program with this kind of file**
8. Click on **OK**

OR

9. Click on **"Keep using Adobe Acrobat"**

Exercise 5. Create a PDF by Printing from Excel

1. Open **Adobe Excel Spreadsheet.xlsx**
2. Select both worksheet tabs
Hold **CTRL** key and click **Chart1** tab

3. Click on **File**
4. Select **Print**
5. Change the printer to **Adobe PDF**
6. Click on **Printer Properties**

7. Change settings as shown:
 - Default Settings: **Smallest File Size**
 - PDF Security: **None**
 - PDF Output folder: **H:**
 - PDF Page Size: **A4**
8. Tick all other options
9. Click **OK**

The output folder can be anywhere you want to store the PDF.

10. Change Settings to "**Only print the active sheets**"
11. Click **Print** button

The active spreadsheets will be printed and converted to PDF. After conversion your PDF will open in Acrobat.

If the Excel sheets do not print as desired, adjust Excel Page Layout settings to change how the content is sized

Exercise 6.

Create a PDF from PowerPoint

1. Open **Adobe PowerPoint Presentation.pptx**

2. Click on **File**
3. Select **Export**
4. Click **Create PDF/XPS** button

5. Check **Open file after publishing**
6. Select **Optimize for Standard**
7. Click the **Options** button

8. Click on **OK**

This will confirm default settings as shown

- Range: **All**
- Publish options: **Slides**
- Include non-printing information:
Document properties
Structure tags for accessibility
- PDF options: **Bitmap text when fonts may not be embedded**

9. Click on **Publish**

Exercise 7.

Create a PDF from within Acrobat

- a. **Create a PDF**

1. Click on **Create PDF** in the Tools Screen

2. Select **Select a File**
3. Select **Adobe Image.jpg**
4. Click on **Create**

The image will be converted and opened in Adobe Acrobat.

- If you want to save the file choose
- **File > Save as**

b. Open a file as a PDF

1. Click on **File > Open...**
2. Change Files displayed to **All Files (*.*)**
3. Select the file **UQArtGallery.jpg**
4. Click on **Open**

Adobe will attempt to convert the file to PDF and will open it if successful.

- If you want to save the file choose
- **File > Save as**

c. Create a PDF from a file

1. Click on **File>Create**
2. **Select PDF from File...**

3. Change Files displayed to **All Files (*.*)**
4. Select the file **UQlibmaindoor.jpg**
5. Click on **Open**

Adobe will attempt to convert the file to PDF and will open it if successful.

If you want to save the file choose

- **File > Save as**

Accessibility

Accessibility is about making a document 'accessible' to people with impaired vision, both blindness and low vision, and impaired mobility. The accessibility features of Acrobat allow pdf files to be used with screen magnifiers, screen readers and braille printers.

Including accessibility features in a pdf also allows for correct reflow and viewing on mobile devices with small screens.

There are two categories of features: those that make reading a pdf easier and those that allow you to create accessible pdf documents.

Exercise 8.

Check a PDF for Accessibility

1. Open **Adobe Word Document.PDF**
2. Click on **Tools** to open pane

3. Select **Accessibility** panel
4. Click on **Full Check**

5. Complete settings to
 - **Create Accessibility Report**
 - **All pages in document**

6. Click **Select All** button to confirm all checking options
7. Click on **Start Checking** button

A report is generated and displayed in a panel on screen.

Rectify Accessibility Issues

1. Click on **Reading order** in **Accessibility** panel
2. Click on **Box 1** in file
3. Select **Text** button in dialogue box

4. Right click on **Object 5**
5. Select **Edit Alternate Text...**

6. Insert Alternative text “**Globe icon**”

Only add Alt text for meaningful images. Do not add Alt text on decorative images.

7. Click on **OK**

8. Repeat to add alternate text to:

Object 2 – **Man looking at world map**

Object 4 – **Caption**

Object 2 – **La Grande Roue Paris**

Object 4 – **Caption**

Item 3 Path is the hyperlink to external websites

9. Right click on **Logical Reading Order...** in the **Accessibility** panel

10. Click **Pass**

11. Repeat for **Color contrast...**

12. Click on **Full Check**

There should be no remaining issues to be resolved in your PDF

Converting PDFs

Exercise 9.

Convert a PDF to Word

1. Open **Adobe Word Document.PDF**

2. Click on **File > Save As**
3. Select **Microsoft Word > Word Document**

4. Click on **Settings...**
5. Confirm **Layout, Comments, Image and OCR** settings
6. Click on **OK**

7. Add **conversion** at the end of the filename
8. Click on **Save**

Following conversion there may be some loss of integrity within the document. Headings may not be styled and images and tables may not be correctly aligned.

Consolidating PDFs

Exercise 10.

Combine files into a single PDF

1. Click on **Create PDF** button
2. Select **Multiple Files**
3. Select **Combine Files**
4. Click **Next**

5. Click on **Add Files... > Add Files...**
6. Ensure **All Supported Formats** is showing
7. Hold CTRL key and click
Adobe Excel Spreadsheet.pdf
Adobe Word Document.docx
Adobe Powerpoint Presentation.pptx
Adobe Image.jpg
8. Click on **Open**

You also have the option of dragging relevant files onto **Combine Files** dialogue box.

9. Click on any file
10. Drag to reorder the files as shown:
 Adobe Image
 Adobe Word Document
 Adobe Excel Spreadsheet
 Adobe Powerpoint Presentation

1. Click on **Options**
2. Ensure **Smaller File Size** is selected
3. Check all options
Accessibility, bookmarks, errors
and portfolio
4. Click on **OK**

5. Click on **Combine**

Acrobat will process the files by printing and converting to produce one PDF with all files included. A new PDF will open called BINDER1.PDF

6. Click on **File > Save As**

7. Ensure the File name is "**Binder1.pdf**"
8. Click on **Save**

Rename automatically generated bookmarks

1. The bookmarks available in this PDF are the filenames of the original files

2. Right click on **Adobe Image** bookmark
3. Select **Rename**
4. Enter “**Cover Image**”
5. Click in on screen to confirm

Check Binder Properties

6. Click **File > Properties**

Look at the file size and add descriptive details for the combined PDF

Exercise 11. *Extract pages from a PDF*

1. Open **Binder1.pdf**
2. Click on **Organize Pages** button in Tools Pane
3. Select **Extract**
4. Enter a range of **2 to 5**
5. Click on **Extract**

6. Click on **File > Save As**
7. Enter filename **Extract**
8. Click on **Save**
9. Press **CTRL + W** to close file

This will keep Acrobat application open.

Exercise 12. *Add pages from another PDF*

1. Using **Extract.pdf**
2. Click on **Organize Pages** button in

Tools Pane

3. Click on **Insert > From File...**

4. Select **Adobe Powerpoint Presentation.pdf**

5. Click on **Open**

6. Enter a location **After**

7. Enter page location **3**

The whole file will be inserted after page 3

8. Click on **OK**

9. Click on **Save** icon in toolbar

10. Press **CTRL + W** to close file

This will keep Acrobat application open.

Exercise 13.

Create a Portfolio

Use a portfolio as a container to hold a number of other documents, including PDF and other formats. ⚠ You will need Flash Player to use this tool.

1. Click on **Create PDF** button
2. Select **Multiple Files**
3. Select **Create PDF Portfolio...**
4. Click **Next**

Create a PDF from any format

- Single File
 - Multiple Files**
 - Scanner
 - Web Page
 - Clipboard
 - Blank Page
- ☐ Combine Files
Create a single PDF from multiple files
 - ☐ Create Multiple PDF Files
Convert multiple files into PDFs at the same time
 - ☒ **Create PDF Portfolio**
Aggregate and organize multiple types of files into a PDF package

Next

5. Add your files by selecting **Add Files...**
6. Select **Adobe Image.jpg**
7. Click on **Create**

The Portfolio is created and opened for viewing and editing.

Exercise 14.

Edit a Portfolio

Add files to a portfolio

1. Select **Add Files...**
2. Hold **CTRL** key and click
 - Adobe Excel Spreadsheet .xlsx
 - Adobe Powerpoint Presentation.pptx
 - Adobe Word document .pdf

3. Click on **Open**

Access portfolio content

1. Click any file
2. Select **Preview**
3. Select **Open Document** to open file
4. Right Click a file and select **Show**

Adobe Excel Spreadsheet.xlsx

Only preview files from sources that you trust.

☐ Always trust this type of file and show preview.

Preview

Information to get file information

- Click on close icon  to return to file

Remove files from a portfolio

- Click on the **Rubbish Bin** icon
- OR**
- Right click on file and select **Delete**

Security and Protection

Exercise 15.

Restricting user activities

- Open **Binder 1.PDF**
- Click **File** menu
- Choose **Properties**

- Select the **Security** tab

5. Click the drop down arrow next to **Security Method**

6. Choose **Password Security**

7. Go to the **Permissions** area. Place a tick in **Restrict editing and printing**

- Enter the letter **"a"** as a **password**
- Printing allowed **None**
- Change allowed **None**
- Clear **Enable copying if necessary**
- Check **Enable Text Access**
- Choose **OK**

Permissions disclaimer

8. Click on **OK**

Confirm password

9. Re-enter the letter **"a"** as a **password** to confirm

10. Click on **OK**

Permissions aren't officially set until the file is saved.

11. Click on **OK**

12. Click on **Save** icon in toolbar

Check Security

1. Check title bar for **(Secured)**
2. Click the **File** menu
3. Choose **Properties**
4. Select the **Security** tab to check Document Restrictions

Notice most restrictions are now Not Allowed

5. Click on **OK**

Commenting

The Adobe PDF annotation mechanism includes a broad set of highlighting, drawing and other tools that you can use to add comments to a document.

Exercise 16.

Add comments to a PDF file

1. Open **Extract.pdf**
2. Click on **Comment** in Tool pane
3. Tools available include:
 - Sticky note
 - Highlight
 - Attach file
 - Record Audio
 - Add Stamp
 - Text markup
 - Text boxes
 - Callouts
 - Lines, Shapes and Freeform

4. Click on a **Sticky Note** tool 
5. Click in document
6. Enter a **comment**
7. Click the cross to close sticky note

8. Hover mouse over note icon  to preview message

Double clicking a comment icon opens the associated pop-up and allows editing

Add Stamps

1. Click on arrow beside **Add Stamp** tool
2. Select **Show Stamps Palette**
3. Click on a Stamp

You may be required to complete personal details when using some stamps

4. Fill in relevant details
5. Click on **Complete** button

Identity Setup

Please enter the identity information that will appear on your digital identity stamps.

Identity

Login Name: uqfstrou

Name:

Title:

Company:

Department:

Email Address:

☐ Don't show again

6. Click in document to apply stamp

Annotate to mark text

1. Click on Insert text tool 
2. Enter any text in message box
3. Click on Underline tool 
4. Select text in document
5. Click on Add note to text tool 
6. Enter text in message box

The Founders

Alpheius Global Enterprises was founded by three people: Annabel Lewis.
